

COST Targeted Network TN1302 BESTPRAC

Open Access Strategy a first idea

Open Access Situation in Austria

- Project on e-infrastructure in AT <http://e-infrastructures.at/en/startpage/>
- Cooperation e-media > deals for OA
- Recommendations for implementation of OA
- Negotiations with publisher (Elsevier, Springer, etc.) driven by mainly big Universities
- National funding agencies require OA
- Open Access Network Austria (OANA)

Open Access Strategy

- On the green way...
 - Budget for OA in projects
 - Payment of the publisher for OA
 - Agreement with national publisher including free amount of OA (within a network)
 - Self-archiving of publications via website (widok)
 - Work on an OA policy for the University (WG)
 - OA experts (library)

Open Access Strategy

- ...heading the golden way
 - All publications OA
 - Novel e-infrastructure for repository
 - Implemented OA policy
 - Guidance and training for the researcher

Open Access Strategy

- Self publications
 - DOI registration
 - Repository
 - Contra: outreach
